

## Seascope Belgium - Internships

### Multimedia and Communication Support Officers

**Start date:** To be agreed

**Duration:**

- 4 to 6 months internship/training schedule, with a view to of longer-term recruitment depending on performance and external funding

**Working hours:** Full time

**Employer:** Seascope Belgium

**Location:** Seascope Belgium Brussels Office, Brussels, Belgium.

**Role & Responsibilities:**

We are looking to engage enthusiastic and motivated individuals for a student job or internship in support of the communication and outreach activities of Seascope Belgium to support the development of multimedia material for projects and activities we are currently engaged in (see portfolio here: <https://seascopebelgium.be/our-work>) in the marine science and environmental management sector.

After completion of a training cycle of 4-6 months, pending positive evaluation of performance and available resources, the trainee will be considered for recruitment as part of the Seascope Belgium team.

**Main tasks and responsibilities**

The main tasks will be selected based on the needs, interests and competencies of the applicant, and will be performed under guidance and supervision of experienced senior staff. The scope of the work will entail among others:

- Provide all-phase production support for video and animation shorts integrating interview footage, stock footage and animations: assisting with camera operation for interviews, set-up and sound checking; management of file transfers, transcript generation; selecting suitable footage from archives and available sources, support with editing;
- Create eye-catching visuals (graphics and motion graphics) for social media to promote project events and activities;
- Support the development of conceptual graphics & data visualisation to convey complex scientific concepts for digital and print publication;
- Provide organisational support in the management of visual asset archives;
- Formatting and design of visually compelling slides for presentations applying established brands.

**Added value for the student/trainee**

The trainee(s) will benefit from working alongside staff with expertise in communication and multimedia with a focus on sustainability projects, mostly in the marine/maritime domain, working in a professional environment driven by excellence and engaging with stakeholders across Europe and beyond, contributing to promoting ocean and coastal knowledge dissemination and literacy.

What we can offer you:

- An opportunity to develop a professional portfolio;
- Mentorship and training from experienced designers, videographers, multimedia producers, scientists and researchers;
- Potential opportunity to travel to industry events to support video production;

- A vibrant environment to learn and hone your skills while contributing to meaningful work in support of the Mission Ocean European Union Mission: Restore our Ocean and Waters by 2030

**Profile and competences required:**

- Applicants for the internship must have already completed a Bachelor's or Master's Degree in a relevant discipline;
- Formal design training in multimedia disciplines: graphic design, motion graphics, film;
- Efficiency in the Adobe Premier Pro Suite, experience with Adobe Premiere, Illustrator and Photoshop, experience with After Effects and InDesign is a plus;
- Familiarity with WordPress Elementor or experience with similar CMS a plus;
- Experience using the Google Drive/Workspace and Microsoft Teams collaborative environments;
- Familiarity working within established visual brand parameters;
- Ability to deliver to a brief and/or capture requirements to ensure vision consensus;
- You can deal with constructive criticism and translate feedback into a new version of your work;
- You take responsibility and work independently;
- You have a creative mind and an eye for detail: copy and graphic elements;
- You are willing to expedite repetitive tasks and take direction;
- Excellent standard of spoken and written English (working language). Knowledge of the local languages (Dutch/French) would be an advantage as well as any other European language;
- Strong work ethic for working transparently with open communication and ability to work both individually and as a team player;
- Ability to report progress and issues in an effective manner internally and externally at group meetings;
- Excellent organisational skills with capacity to deliver on allocated tasks and meet deadlines.

**Conditions:** Trainee/internship remunerations and contracts are based on the Flemish local scheme "BeroepsInlevingsStage" (see <https://www.vlaanderen.be/nl/werk/werk-zoeken/beroepsinlevingsstage-bis>).

**Application procedure:** Written applications comprising a tailored cover letter demonstrating an understanding of the role and our requirements and CV, including the names of two referees who can be contacted, should be submitted via email to [recruitment@seascopebelgium.be](mailto:recruitment@seascopebelgium.be). There is no deadline for applications; applications will be reviewed as they are received with potential interview and processing shortly after. The position will be offered to the first applicant who meets the selection criteria (see profile and competences required) and positive evaluation after satisfactory interview, assessment and references.

**About Seascope Belgium**

Seascope Belgium is an environmental consultancy specialised in the provision of high-level advice to the marine sector, including industry, policymakers, NGOs and regulatory bodies. Our expertise includes marine and environmental project management, stakeholder consultation and engagement, promotion of ocean literacy and the management of marine data and information. We are driven by excellence. We work alongside leading scientists around the world, and are partners in a number of major European research programmes addressing marine issues. For a full overview of the project portfolio and activities, please visit our website at [www.seascopebelgium.be](http://www.seascopebelgium.be).
